

# Your HTC Desire 700 dual sim

## Inserting your micro UIM, micro SIM and micro SD cards

### IMPORTANT: USE STANDARD MICRO UIM AND MICRO SIM CARDS ONLY.

Inserting a smaller size card (such as a nano SIM with an adapter or a modified SIM) may damage the card slot or cause the card to not fit properly.

1. Open the back cover from the small opening at the bottom.

2. Insert a CDMA micro UIM or 3G/GSM micro SIM into slot 1. Insert the card with its gold contacts facing down and cut-off corner facing in.

3. You can only use a GSM micro SIM in the SIM 2 slot.

4. Insert a microSD card all the way into the storage card slot with its gold contacts facing down.

5

5. To replace the back cover, align the top part first. Then press the sides and the bottom of the back cover to lock the cover into place.
